

Monthly Meeting and Educational Program

Tuesday, July 14, 2009 - 7:00 AM

Cashman Equipment Headquarters: Panel discussion on the LEED Green Building Process with the Owner, Architect, and General Contractor

Panel: **Mike Pack**, COO, Cashman Equipment
Eric Roberts, Associate AIA, LEED AP, SH Architecture
Roger Thomas, Senior Project Manager, LEED AP, Burke and Associates, Inc.

Please join us for a relevant discussion on the LEED process using a recently completed project as an example. Cashman Equipment completed their new headquarters in Henderson and anticipates a LEED Gold certification. The campus uses technologies such as a ground source heat pump system for heating and cooling, high performance glass, high indoor air quality strategies, use of recycled products, and of particular importance to Cashman, the project doubled the minimum required regional material. The project was designed by SH Architecture and built by Burke and Associates. The owner, architect, and general contractor performed as a true team collaborating on all issues to make the best possible choice for the maximum benefit. This panel will include a representative from each organization to share their experiences.

Where: **Springs Preserve**, 333 S. Valley View Blvd., Las Vegas, NV ([map & directions](#))

Sponsored by: [Nevada Sales Agency](#)

Please RSVP by 5:00 PM THURSDAY, July 9, 2009
