

Green Munch & Learn

Insulated Concrete "Sandwich" Wall Panels

Presented by **David Syring**, Southwest Region Manager
Composite Technologies Corporation - THERMOMASS®

THERMOMASS is a system that enables the concrete wall contractor to assemble insulated concrete "Sandwich" wall panels. Developed 28 years ago, the patented fiber-composite connectors in conjunction with Dow STYROFOAM Brand Insulations have helped create a durable energy efficient wall system that incorporates architectural creativity and fast track construction. Since 1980, [THERMOMASS](#) has been used in over 950 million square feet of construction world-wide.

Mr. Syring has over two decades of public works construction experience, specializing in concrete manufacturing in the Southwestern U.S and in the sales and marketing of specialized landscaping product delivery and energy efficient, green real estate. He is an active member of the Nevada chapter of the USGBC.
